# THINGS TO REMEMBER

- 1 A three week facial workout for your face to remove dead skin and treat acne can give you full advantage of that glow you want.
- 2 Still feel a little stressed? Our massage therapist Karen Koonce can quickly give you a massage.
- 3 Limit yourself to one glass of wine, beer or champagne at your wedding rehearsal dinner. Alcohol can cause water retention, dehydration or make you look four to five pounds heavier. It also may cause dark circles under your eyes the next morning.
- 4 If your wedding shoes are too tight, rub the inside of the shoe with a cotton ball or face cloth with rubbing alcohol before putting them on. The alcohol tends to relax the leather or material and permits it to stretch out a little more as you put them on.
- 5 Be sure that all your bridesmaids wear the same color nail polish or French manicures.
- 6 Call each bridesmaid and tell them to bring a large tote bag for their personal belongings such as a change of clothes, shoes, personal hygiene products, make-up, jewelry, etc.
- 7 Each bridesmaid should bring an extra pair of panty hose just in case they snag or tear.
- 8 Varzelli suggest that all bridesmaids should wear the same perfume and, may we add, put it on very lightly because some perfumes are stronger than others and it can be overwhelming in the wedding area. **BE SURE TO TELL THEM.**
- 9 Varzelli suggests you use an unscented bath powder all over your body. It will help absorb some of the perspiration and keep your wedding dress from sticking to your skin, keeping you fresh.
- 10 Don't forget to bring your breath mints, toothpaste, mouth wash, safety pins, stick pins and Kleenex tissues.
- 11 Call your bridesmaids the night before to make sure they're ready for the next day.
